

May 8, 1967

MEMORANDUM FOR: General Manager, [REDACTED]
SUBJECT: Project MERRIMACK

1. Reference is made to previous correspondence and discussion on April 26, 1967 relative to the above captioned Subject.

2. This will confirm that on April 26, 1967 you were instructed to continue periodic monitoring of the following indicator organizations which are of interest to the Parent Organization: Women Strike for Peace, Washington Peace Center and Students Non-Violence Coordinating Committee.

3. It was emphasized that the primary objective of the coverage of these aforementioned organizations was to provide a timely advance warning of impending demonstrations directed against any PO installations on a long-range basis. It was further indicated that SNCC is the most critical organization since it possesses the greatest potential for violence and has openly reflected that it is a revolutionary group and has named the PO as a potential target.

4. In order to service the aforementioned very sensitive operational requirement, the following agent assets were initially earmarked for this operational activity: [REDACTED] WSP, [REDACTED] SNCC, [REDACTED] WPC.

5. With regard to the funding arrangements for this operation you were asked to submit it to the PO, for approval, a financial plan to include the future payment of the agents coupled with the estimated costs (salaries, etc.) while they (the agents) were away from their site.

6. Your earliest attention to paragraph five is appreciated.
